A Terrible Appetite.
A prominent physician of Louisville claims to have a case which is unique in the history of medicine, and is that of a child of six years old which has developed an appetite for her own blood. The child is that of respectable parents, who are exceedingly sensitive on the subject of their child's unhealth. The child's mother, public has prevented the doctor from reporting the case for the benefit of the profession. He has, however, taken into consultation a famous English physician, who agrees with him in pronouncing the case unparalleled.
The child is an intelligent little girl, of a gentle disposition and apparently quite healthy. When asked why she wants to suck her blood she declares she is thirsty for it and cannot help doing it. Her singular appetite is of only about six weeks' duration, and was first noticed by her mother finding her one morning bathed in blood, with a wound torn in her forearm.
Supposing a rat had bitten her the doctor was summoned, who, questioning the child, was horrified to hear her frankly state she had inflicted the wound herself. She has repeated the act some half a dozen times since at irregular intervals, and narrowly escaped bleeding to death on one or two occasions. She has been severely punished for the act, but to no avail. Her parents declare that there is nothing in the family history to explain the thing. It is thought the child will outgrow the morbid appetite. —Philadelphia Times.

To Obviate Trolley Poles.
If the invention of Dr. Bates, of this city, stands the test of experiment the entire electric railway system of overhead wires and poles will soon be superseded by a simple conduit bolted to the center of the track. Some such invention is greatly needed. The overhead maze of wires is a constant source of delay and danger. The place for all electric wires, whether for railways, telegraphs or telephones, is underground, or properly insulated and protected in conduits, as proposed by Dr. Bates.
The main difficulty to be apprehended with the new invention is with snow and ice in winter. The slot which admits the trolley from the car into the conduit is protected from rain and dust by a steel strip which acts with a spring. If this strip and spring can protect the slot alike from rain and dust in summer, and from snow and ice in winter, the invention may prove to be one of the most important in years. President Lowry deems the invention to possess considerable merit, and will undoubtedly give it thorough trial. —Minneapolis Tribune.

His Hair Quickly Bleached in a Cavern.
William Gormly is a farmer in Hickory township. He has been making a tunnel in the side of the hill to a spring for the purpose of carrying water to a field below. John Grimes was employed to dig the tunnel.
When he had proceeded about thirty feet into the hill, and was about twenty feet from the surface, he found himself in a cave-like hollow, the roof of which was rock, in which there was a crack from which he could see light. When he reached the hollow, or cave, the hill apparently sank in where he had been digging, and he found himself a prisoner twenty feet under ground. He called for help, and later Mr. Gormly procured assistance, and, after working all night, released him, after being in the hole eighteen hours.
Mr. Grimes' hair was jet black when he entered the tunnel, but it turned snow white during the time he was imprisoned. —Cor. Pittsburg Dispatch.

The Ice Cure.
About two years ago a contributor to The North American Review called attention to the hygienic value of refrigeration, and predicted that climatic fevers would yet be cured in ice cooled hospitals. That prediction seems to have been verified by an actual experiment. Havana papers publish circumstantial reports from Santiago de Cuba where a Spanish physician is treating, and invariably curing, yellow fever patients in a camera polar (polar chamber), i. e., in a sanitarium reduced by means of ice to a temperature nearly 40 degs. below the average of the outside atmosphere. The result appears plausible enough, and the only puzzle seems why Yankee enterprise has not long ago acted upon the hint that the first night frosts put a stop to the malarial disorders of our gulf states.

Children Cry for Pitcher's Castoria.

DELINQUENT NOTICE.
RENO ELECTRIC LIGHT AND POWER COMPANY, a corporation. Location of principal place of business, Reno, Nevada. Notice is hereby given that the following described stock on account of assessment No. 6, levied on the 21st day of August, A. D. 1891, the several amounts set opposite the names of the respective stockholders as follows:

No.	Cont.	No. Shrs.	Am't.
Luke, W. J.	24	100	50 00
Luke, W. J.	25	100	50 00
Polson, L. D.	14	200	100 00
Polson, L. D.	15	200	100 00

The two questions which particularly concern the people of Nevada at the present time are free coinage and irrigation. Beside these the tariff question sinks into insignificance as we produce nothing in Nevada that is benefited by protection, save wool, and that has declined from two to four cents per pound since the passage of the McKinley bill. As Nevada to-day is producing more grain, vegetables, fruits, beef and hay than it consumes, and there is very little profit in raising grain and hay for export, the population of the State must be materially increased before much benefit can be derived from irrigation. The State needs more consumers to make agricultural pursuits profitable. As capital will not or at least does not invest in manufacturing enterprises, which would give the farmers a home market for their products by increasing the number of consumers, some other means must be sought of adding to the population of the State. From the present outlook nothing can be seen that will accomplish this result in Nevada except the free and unlimited coinage of silver as well as gold.

That would increase the value of silver bullion from its present price, 96 1/2 cents, to \$1.20 per ounce and give an impetus to mining that would bring thousands of people to the State. The deserted mining camps of to-day would be re-inhabited and farmers could market their products at home at remunerative prices. The influx of people would increase the demand for agricultural lands and irrigation on an extensive scale would follow.

To assist in bringing about this desirable result should be the aim of every resident of Nevada, therefore, our people should make the free coinage of silver the paramount consideration, and give the East to understand that they will not support individual or party in the Presidential election that is not absolutely and unequivocally in favor of free coinage.

The Judges of the new United States Circuit Court of Appeals are to wear gowns, and those gowns have just been made in Cincinnati. They are patterned after those worn by the Justices of the United States Supreme Court, each gown containing twenty-three yards of black silk and reaches to the instep when the Judge stands. The sleeves are flowing like the robes of a Bishop. This seems to be aping the customs of monarchical countries. It certainly does not add to the dignity or increase the wisdom of an American citizen whether on or off the bench, to envelop him from head to foot with a silken gown.

Flavien Poudroux of Paris claims to have "solved the problem of a substitute for dynamite in electric lighting by providing a cheap, inodorous, inoffensive electric battery, capable of supplying light enough for domestic uses." Mr. Poudroux claims that by the construction of this battery he is enabled to employ a great surface of zinc in a cell of moderate capacity containing little liquid. The ingredients of the solutions, he adds, are very cheap.

The Secretary of the Treasury has placed Bologna sausage on the free list in view of its importance as food. There are no trusts engaged in the manufacture of Bologna sausage in this country, hence the industry is not protected nor encouraged. As we export beef and pork to Europe and import sausage from that country, the inference is that the sausage does contain very much of those meats.

Edward Everett Hale says, the beautiful name "California" was the creation of Senor Don Ordonez de Montalvo, in his Spanish romance entitled "Largos de Esplandian," published in 1510, in which he mentioned the "Island of California on the right hand of the Indies, very near the terrestrial paradise."

A band of swindlers in West Virginia, represented that the National Government was short of gold and was willing to give three times its value in checks on the Treasury for the coin. Many persons were caught in the scheme and it is believed as much as \$50,000 were realized by the rascals.

"The Republican party stands as a bulwark against the free coinage of silver," says Henry Cabot Lodge, author of the Force bill, and Chairman of the Massachusetts Republican Convention, and the gold bugs believe him and send silver down to 96 1/2 cents an ounce.

A suit has been commenced in the State Circuit Court of Oregon against the Oregon Pacific Railroad Company to annul its charter, which, it is alleged, the company has violated by refusing to pay its employees.

Celebration.
Special to the Journal.
WHEELING, W. V., September 22.—West Virginia, Pennsylvania and Ohio celebrated the emancipation proclamation anniversary in this city to-day. A grand parade was held in the morning and this afternoon ex-United States Senator Bruce, orator of the day, addressed an assemblage of several thousand. He ignored politics entirely, and eloquently reviewed the progress of the colored people since released from bondage.

BY TELEGRAPH!
News of Importance From Home and Abroad.

Oklahoma Home Seekers.

GUTHRIE, O. T., September 22.—Simultaneous with the arrival of the hour of noon, the home-seekers gathered on the border and made a headlong rush over the line into the coveted country and on quarter sections upon which their eyes had been feasting for some days, and others for weeks and months.

The rush was a mad one, and was made so by the fact that the number of home seekers greatly exceeded the number of quarter sections available for settlement. There is room on the lands for about 5,000 settlers, allowing 150 acres for each. There were on the border waiting to claim available land fully 15,000 people.

Some of the more desperate cowboys mounted steers, and the latter, joining in the stampede, carried their riders to the interior, while others were unceremoniously unhorsed or unsteered not far from the border.

The boomers were distributed among the various starting points about as follows: At Topeka, 3,000; Langston, 2,000; on the border of Kickapoo, 8,000, and on Potawatomi border 2,000.

One of the unique sights at Topeka was a company of young ladies from Guthrie, who had formed a colonization company to proceed to the new lands and settle on adjoining claims. They were on Texas ponies and were attired as near as might be in cowboy's costume, armed with revolvers and equipped for camping out. They made the race in a body.

So far as ascertained up to the present time no serious conflict has taken place between rival claimants.

Guthrie was an animated town this morning. The storekeepers all agreed last night to double the price of their wares and even then the supply was nearly exhausted before night. The scene at the Land Office here to-day was a lively one. About 250 soldiers armed with declaratory statements have been standing before the office door for four days past. Some slept in chairs, some on the ground and some hardly slept at all. Their meals were brought to them by their wives and children or friends.

There was no disturbance about the office and business proceeded quietly and swiftly. At 7 o'clock all the old soldiers had got in their papers. The line did not decrease in length, however, as the settlers who had located claims in the new lands began to arrive to file entry notices. The Land Office kept open until 7 o'clock and at that time fully 200 men were still in line and others arriving every minute.

The Government supervision of the opening seems to have been sadly deficient. The entire Government force was composed of two companies of troops, 200 men and horses and three United States Marshals, numbering about 250 men. Of the latter, fifty were sent to Langston to preserve peace between the cowboys and the negroes. Other details were necessary, leaving only some 300 men to patrol the borders of about 200 miles in extent. Two miles north at Topeka, about 200 boomers gathered in a secluded spot and at 9:30 rushed over the border and began a race for choice sections of land. It is estimated that fully 3,000 settlers entered land before the usual time.

Topeka this morning was an Indian town and to-night it is a white man's city of 1,500 inhabitants. At an election held this afternoon, Joseph McNeil was chosen Mayor. At Topeka the boomers waited until the noon hour before making a rush and the occupation of land was peaceful.

Among the boomers at a point below Topeka was one woman who crossed the line before time. A deputy marshal forced her back over the line. Soon after she again crossed the line prematurely, and when the deputy a second time ordered her back, she drew a revolver from her dress pocket and opened fire upon him. The marshal returned the fire and shot her in the left leg just below the knee, shattering the limb and disabling her so that she was unable to make the race. When the time came the others left her under a tree this side of the border.

The Hopkins Will.

SALINA, Miss., September 22.—Mr. Burleigh asked the executors to produce the will of Mary F. S. Hopkins, dated November, 1887. Judge Harmon ruled that the executors produce the will. Mr. Burleigh stated that the position of the contestants was, first, that there was not sufficient attestation of the will; second, that the will was procured by undue influence and fraud on the part of Edward W. Searls and some confederates, and third, that the testatrix was not of sound and disposing mind at the time the will was made. Mr. Burleigh then called Edward F. Searls to the witness stand. In the afternoon session the examination of Searls was continued. He first met Mrs. Hopkins in San Francisco in March, 1883, going to her house with a letter of introduction to look over her house. The first proposition of marriage between the two came from Mrs. Hopkins in New York in the Fall of 1883. He did not assent to it for a year, but in December, 1884, he entertained the proposition. He knew at the time Mrs. Hopkins was 21 years his senior. He knew Mrs. Hopkins was a lady of large means. He delayed the proposition of marriage to give her a chance to be sure she was satisfied, and after he entertained it delayed marrying for three years. Witness from 1885 to 1887 was superintending the building of Mrs. Hopkins' house at Great Barrington. He had understood that her son Timothy, in connection with the railroad people, managed her affairs. He had been told by Mrs. Hopkins that Timothy had objected to the marriage but cherished no ill will toward him for it.

Coal Burned.

FRESNO, September 22.—About two months ago the Southern Pacific Railroad Company began hauling large quantities of coal to this place. It was piled on the ground for want of bunkers. The coal was brought from Wyoming. A few days ago smoke was discovered issuing from the coal, and men were set to work to extinguish it. The fire was caused by spontaneous combustion. All efforts to extinguish it were futile. To-day the entire mass, three thousand tons, is on fire. Fifty men have been at work all day trying to subdue the fire, but it is yet beyond their control. An engine with water cars was kept busy hauling water with which to flood the coal heap. The water seems to increase the volume of the fire, which bursts out in blue flames where water is thrown on it. To-night the men are removing coal from the sides, hoping to save a portion of it. Unless success attends this movement the loss will not be less than \$20,000. The heat and poisonous gases nearly suffocate the men at work. When the fire is extinguished in one place it bursts out violently in another place. The mass is two hundred feet long, and the line of craters run along the summit, from which blue flames issue. Large crowds of people visit the novel scene of a miniature mountain of coal on fire.

Horrible Murder.

SAN LOUIS OMBRO, September 22.—A horrible murder has been unearthed which was committed at the eastern border of this county. On the seventh of June last Martin Heins disappeared, leaving no trace. Within the last few days his blankets and clothes were found sunk in a well, wired up with stones. Fragments of bones and flesh, showing that he had been hacked to pieces with an axe, were found buried in a hog wallow near the shanty of the pre-emptor, named John Silvia Galarte, for whom the man had worked. A corner's jury found that the man was murdered by Galarte. The sentence tended to show that Galarte had killed Heins by shooting him in the back. He then chopped him up and fed the pieces to the hogs.

Invasion of Garzia.

NEW ORLEANS, September 22.—A Picayune's San Antonio special says: "General Stanley had telegrams to-day from General Lazerous, Commander of the Fourth Military Zone of Mexico, stating that the invasion of Garzia and his band had ended. They were 227 miles from Reynosa, Monday, and are scattered in order to try to cross into Texas. A few have gotten across. A thousand mounted Mexican troops have the rest almost surrounded and the American troops on this side are waiting to intercept any who may attempt to cross. General Lazerous says the object of the band was robbery and the raid had no political significance."

Restoring Old Fort Sutter.

SACRAMENTO, September 22.—Without counting some preliminary work that has been done, the first real step toward the restoration of the old Sutter fort was taken this afternoon, when George W. Murray, Jr., contractor, laid the first adobe brick in the new wall. Old time methods have been followed in the manufacture of adobe bricks and when the structure is rebuilt it will look just like the original one that afforded shelter to so many early pioneers. Governor Markham manifests a deep interest in the matter and has daily councils with the trustees.

Death of an Old Soldier.

CARSON, September 22.—John E. Morris, a printer and ex-soldier, died in his room, at the Capitol lodging-house, this afternoon. Morris was Sergeant of Company D, Eightieth Illinois Infantry and received an honorable discharge. He joined the ranks at nineteen. He has a wife and daughter in Oswego, Illinois, and a mother and son in Wisconsin. The remains were taken charge of by the Coroner, assisted by ex-soldiers.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children with tooth-ache, if disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there are no mistakes about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

The agreement of marriage was entered into September, 1887, on witness' part because he greatly admired her. In reply to a question he said he married her for all she had, both love and money, but should have never married her for money alone. Did not know of the will made the day of marriage, November 8, 1887, until after her death but did not think it was intentionally made behind his back. A marriage contract, made at the same time, was also put in, conveying by Mrs. Hopkins to J. E. Stillman, trustee, for the benefit of Edward F. Searls after marriage, the mansion in San Francisco, improved and unimproved land in Sacramento, mountain lands in Summit, Soda Springs, Cal., redwood and timber lands on the Coast Range, two parcels of quarry lands, Great Barrington property and four lots on Ninth street, New York. This contract was cancelled June 16, 1888. The hearing adjourned until to-morrow.

Special to the Journal.
FRESNO, September 22.—About two months ago the Southern Pacific Railroad Company began hauling large quantities of coal to this place. It was piled on the ground for want of bunkers. The coal was brought from Wyoming. A few days ago smoke was discovered issuing from the coal, and men were set to work to extinguish it. The fire was caused by spontaneous combustion. All efforts to extinguish it were futile. To-day the entire mass, three thousand tons, is on fire. Fifty men have been at work all day trying to subdue the fire, but it is yet beyond their control. William F. Sheehan.

The Democratic Nominee for Lieutenant Governor of New York State.

It is not a matter of interest to the country generally who may be the Lieutenant Governor of New York, but William F. Sheehan, the present nominee, has other claims to consideration. He is probably the astutest political manipulator in the State—a sort of power behind the throne. William F. Sheehan is of Irish ancestry and was born in Buffalo, N. Y., November 6, 1859. In early youth he attended public school, afterwards he attended St. John's College, Buffalo. He read law

Flower went into business for himself as a jeweler, which he carried on for ten years with marked success. On the death of his brother-in-law, Harry Keep, the railroad magnate, in 1889, the care of his estate of \$4,000,000 devolved upon Mr. Flower and necessitated his removal to New York City, where he soon rose to eminence as a financier. Mr. Flower has served in Congress and has several times been urged as a candidate for Governor of New York.

ROSWELL P. FLOWER.

The Nominee of the Democrats for Governor of New York.

Congressman Roswell Pettibone Flower was born in Watertown, N. Y., August 7, 1835, and at his father's death, in 1843, the family was poor. He left the village school when 14 years of age to become a clerk in a store at \$5 per month. Private study during spare hours enabled him to graduate at the high school in 1851. The two following years he worked as a laborer in a brickyard, and in 1853 became clerk of the Watertown post office. In 1859 Mr.

Special to the Journal.

SAN LOUIS OMBRO, September 22.—A horrible murder has been unearthed which was committed at the eastern border of this county. On the seventh of June last Martin Heins disappeared, leaving no trace. Within the last few days his blankets and clothes were found sunk in a well, wired up with stones. Fragments of bones and flesh, showing that he had been hacked to pieces with an axe, were found buried in a hog wallow near the shanty of the pre-emptor, named John Silvia Galarte, for whom the man had worked. A corner's jury found that the man was murdered by Galarte. The sentence tended to show that Galarte had killed Heins by shooting him in the back. He then chopped him up and fed the pieces to the hogs.

Special to the Journal.

NEW ORLEANS, September 22.—A Picayune's San Antonio special says: "General Stanley had telegrams to-day from General Lazerous, Commander of the Fourth Military Zone of Mexico, stating that the invasion of Garzia and his band had ended. They were 227 miles from Reynosa, Monday, and are scattered in order to try to cross into Texas. A few have gotten across. A thousand mounted Mexican troops have the rest almost surrounded and the American troops on this side are waiting to intercept any who may attempt to cross. General Lazerous says the object of the band was robbery and the raid had no political significance."

Special to the Journal.

SACRAMENTO, September 22.—Without counting some preliminary work that has been done, the first real step toward the restoration of the old Sutter fort was taken this afternoon, when George W. Murray, Jr., contractor, laid the first adobe brick in the new wall. Old time methods have been followed in the manufacture of adobe bricks and when the structure is rebuilt it will look just like the original one that afforded shelter to so many early pioneers. Governor Markham manifests a deep interest in the matter and has daily councils with the trustees.

Special to the Journal.

CARSON, September 22.—John E. Morris, a printer and ex-soldier, died in his room, at the Capitol lodging-house, this afternoon. Morris was Sergeant of Company D, Eightieth Illinois Infantry and received an honorable discharge. He joined the ranks at nineteen. He has a wife and daughter in Oswego, Illinois, and a mother and son in Wisconsin. The remains were taken charge of by the Coroner, assisted by ex-soldiers.

Special to the Journal.

SALINA, Miss., September 22.—Mr. Burleigh asked the executors to produce the will of Mary F. S. Hopkins, dated November, 1887. Judge Harmon ruled that the executors produce the will. Mr. Burleigh stated that the position of the contestants was, first, that there was not sufficient attestation of the will; second, that the will was procured by undue influence and fraud on the part of Edward W. Searls and some confederates, and third, that the testatrix was not of sound and disposing mind at the time the will was made. Mr. Burleigh then called Edward F. Searls to the witness stand. In the afternoon session the examination of Searls was continued. He first met Mrs. Hopkins in San Francisco in March, 1883, going to her house with a letter of introduction to look over her house. The first proposition of marriage between the two came from Mrs. Hopkins in New York in the Fall of 1883. He did not assent to it for a year, but in December, 1884, he entertained the proposition. He knew at the time Mrs. Hopkins was 21 years his senior. He knew Mrs. Hopkins was a lady of large means. He delayed the proposition of marriage to give her a chance to be sure she was satisfied, and after he entertained it delayed marrying for three years. Witness from 1885 to 1887 was superintending the building of Mrs. Hopkins' house at Great Barrington. He had understood that her son Timothy, in connection with the railroad people, managed her affairs. He had been told by Mrs. Hopkins that Timothy had objected to the marriage but cherished no ill will toward him for it.

ROSWELL P. FLOWER.
The Nominee of the Democrats for Governor of New York.

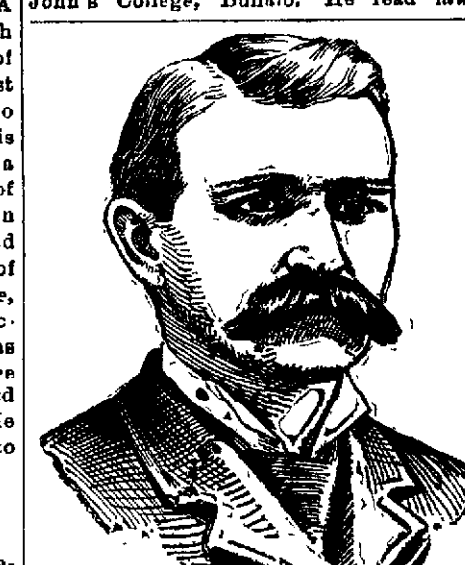

Flower went into business for himself as a jeweler, which he carried on for ten years with marked success. On the death of his brother-in-law, Harry Keep, the railroad magnate, in 1889, the care of his estate of \$4,000,000 devolved upon Mr. Flower and necessitated his removal to New York City, where he soon rose to eminence as a financier. Mr. Flower has served in Congress and has several times been urged as a candidate for Governor of New York.

William F. Sheehan.

The Democratic Nominee for Lieutenant Governor of New York State.

It is not a matter of interest to the country generally who may be the Lieutenant Governor of New York, but William F. Sheehan, the present nominee, has other claims to consideration. He is probably the astutest political manipulator in the State—a sort of power behind the throne. William F. Sheehan is of Irish ancestry and was born in Buffalo, N. Y., November 6, 1859. In early youth he attended public school, afterwards he attended St. John's College, Buffalo. He read law

with the Hon. Charles F. Tabor and became a member of the bar in 1881. He is now in partnership with Tabor, who was afterwards Attorney General. He became a member of the Assembly at Albany in 1885, serving on the State Charitable Institutions and Judiciary Committees. In 1887 he was on the Committee on Federal Relations and Rules, Ways and Means and Revision. He has the distinction of being elected to the Assembly by the largest plurality ever given for any candidate in his district. He is also the first Assemblyman in Erie county ever chosen five times in succession. At present he is Speaker of the Albany Assembly, and has been three times the Democratic nominee for that office.

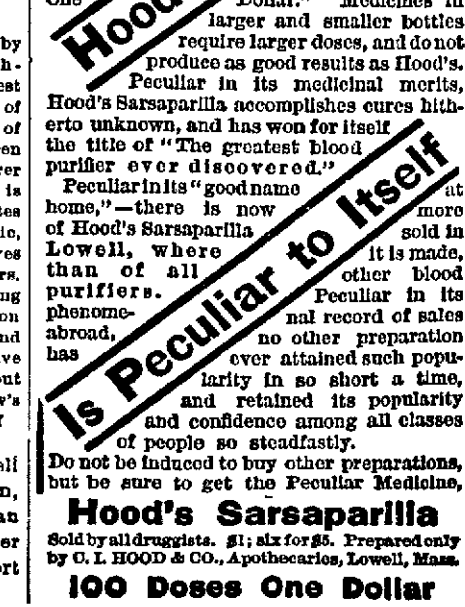

The New York gold brokers evidently believe that McKinley will carry Ohio as they have run the price of silver bullion down to 96 1/2 cents an ounce.

The only no fly lunch counter, and for many other reasons the most convenient, cheapest and best place to go for your meals, lunches and also all kinds of drinks, cigars and lodgings. STERN & BROS.'s.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of its kind which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiarly "goodname" at home—there is now no gold in Hood's Sarsaparilla. It is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, and its popularity has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by all druggists. \$1.50 for 60. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

Judge Bigelow and wife are down from Carson.
Hon. W. E. F. Deal, of Virginia City, is attending the fair.
A. E. Cheney returned to Reno on the 4:30 train last evening.
There are some striking musical novelties in town this week.
G. S. Nixon, the Winnemucca banker, is an attendant at the fair.
El Rio Rey will be speeded around the track on Friday morning.
Miss Vanderleith and mother are the guests of Mrs. Judge Cheney.
Geo. I. Lammon of Virginia City returned from the East last night.
Senator Williams of Elko county was a passenger for the Bay last night.
Joe Gorman and son came in on last night's train from Winnemucca.
Ex-Governor Jewett Adams of White Pine came in on the train last night.
The Palace saloon furnishes a good musical entertainment every evening.
W. H. Mann, Jas. F. Nounnan and C. W. Likens were passengers to San Francisco last night.
Roy Jones, a son of Senator Jones, arrived from Gold Hill last night on his way to Harvard College.
Judge Fitzgerald will hold a session of the District Court at Belmont, Nye county, on Monday, October 5th.
Warren Noteware, Secretary of Agricultural District No. 2, of Ormsby county, paid Reno a visit yesterday.
Dr. Fritchard, of Sierra Valley, editor of the Leader, made the JOURNAL a friendly visit yesterday. He will remain until Saturday.
Old "Billy" Blackmore, the celebrated Jehu, is visiting the fair, and looks as sleek and young as he did in "the days of old, the days of gold, the days of '49."
Our Postmaster Mr. Nasby received 75,000 two-cent postage stamps from Washington last night. These stamps are in demand at the rate of about 1,000 a day.
Colonel Hardin has branded 3,500 calves on his Humboldt and Oregon ranches this year, and will feed 1,500 head of beefs this fall. He has stacked about 4,500 tons of hay.
The JOURNAL acknowledges the receipt of a complimentary ticket to the Fifth Annual Fair of the Ormsby County Agricultural Association, which takes place at Carson next week.
Visitors at the fair desiring to make purchases are respectfully invited to inspect the advertising columns of the JOURNAL to ascertain where the cheapest and best articles can be had.
The exhibits for the pavilion are constantly arriving and being put in place. This evening it will present a brilliant and pleasing appearance, and no doubt a large crowd will be there.
There seemed to be a little of the Spring fight fever on the docket yesterday; several incipient fistifuffs were started during the afternoon and evening, but were soon quelled by the officers.
Two new people will make their first appearance to-morrow night in the Burgess Specialty Company at McKissick's Opera House. The performance last night was very good, though greeted by a poor house.
The hand at the track is choice with its numbers, they are few and far between, and consist of such selections as "Musical Hash," "Thou Art so Near," and so on, tunes that have been hammered at for twenty years. Give us something new boys, even if it is quick and devilish.
The Record, which has stood by Pioche through all the vicissitudes of fortune for over twenty years, has entered upon a new volume. Pioche is livelier and has a brighter outlook than for many years past, and the Record reflects the improved appearance of the camp.
Thomas H. House, United States railroad mail clerk on the steamer Edith, running between Port Townsend and Seattle, was arrested at Port Townsend, Wash., Saturday, by Postoffice Inspector Thrall, for robbing the United States mails. House is well related, but has been drinking and gambling of late.
Stone, Tinslow & Co. have ten or twelve men at work in the War Eagle mine in Arabia District, near Lovelocks. A whim has been erected on the mine and about 400 tons of ore are on the dump awaiting shipment. The ore is reducible in California. Arabia is three miles from the Humboldt river from which stream water has to be hauled to the mine.
The Alturas Herald of September 16th announces the marriage of Rev. James H. N. Williams and Miss Jessie B. Dronillard by Rev. Henry Pearce at the home of the bride's sister, Mrs. O. P. Kistler. Miss Dronillard was among the most intelligent and vivacious young ladies of Cedarville, and Mr. Williams is a highly educated, eloquent and popular young minister.
A Chicago man has invented a machine which stops runaway horses. It consists of a dry battery under the driver's box connected by wires with metal balls placed in the horses' nostrils. There are two buttons, one on the driver's box and the other inside, which close the circuit when pressed. The electric shock is mild, but always brings the horse to a standstill. This machine ought to command a ready sale on the Comstock, where not only horses, but fat cars run away.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

THE STATE FAIR.

Carson Day.—A Large Crowd at the Track.

THE STOCK EXHIBIT A FEATURE.

Excellent Races.—Nevada Carries off the Reno Stake.—The Stock Parade.—The Programme for To-Day.—The Twenty-Mile Relay Race.

Though the weather was slightly inclement, it in no way interfered with the success of the second day, and though overcoats were more popular than lemonade, the people formed, a jolly, animated and interesting crowd. It was Carson Day, and the Capitol City was well represented by her leading citizens. A large number of ladies also came down and were interested spectators at the races. Early in the day people began to wend their way to the grounds and by 10 o'clock there was a large crowd there.

STOCK PARADE.

The stock parade was good, but the parade a nearer the close will be much better, as all entries will then have been made. The stock exhibit is as good as seen for years. To the lover of horse flesh and blooded cattle, there is a display that will interest one for hours. "The Humboldt Stock Farm" occupies a large and prominent space. Thomas Herman, of Wadsworth, Seymour Bryant, of Reno, and Theo. Winters, of Washoe, are well represented. The cattle display is excellent, and one can notice the jolly farmer and dairyman ever near this section of the ground. There will be another stock parade on Thursday morning, which will well repay a visit to the grounds.

YESTERDAY'S RACES.

Opoend shortly after 1 o'clock. The first race was 1/4 mile and repeat, with the following entries: Joe Harding by the Northern stables, Lawless, rider; Mackey by F. P. Lane, Mackay, rider; and Vinco by G. C. Owens, Morton, rider. The pool selling was quite lively, Harding being the favorite at \$10 to \$6. They made an uneven start, Joe Harding being well in the rear. He rapidly recovered ground, but was not fast enough to come in winner, Mackay taking the heat. Time 0:50. Vinco second and Joe Harding third.

Pool selling was very lively for the second heat. In this heat Mackay loomed up as the favorite. The start was good, and as Mackay and Joe Harding came in almost neck and neck the crowd all arose in the grand stand and cheered their favorites. Mackay again came in winner; time 0:49, with Harding a close second.

The second, and much talked of, race The Reno Stake, came next with the following entries: Bess Shannon, by Thompson; Almont, by Van Gorden; Wild Oats, by J. Stephens, and Nevada by Kirkendall. Morton rode Bess Shannon; Ward, Almont; Mitchell, Wild Oats, and Hart, Nevada. Pool selling was lively with Nevada a favorite, Almont second and Bess Shannon and Wild Oats in the field, selling eight to one. There was a pretty start and as Bess Shannon spurred ahead and kept the lead several lengths the Renottes set up a shout and it looked like a big day for the fielders, but slowly and surely Nevada and Almont pulled up and Bess Shannon fell behind. The excitement was intense, and as they neared the mile post it was hard to tell how they stood. Nevada came up winner, hard pressed by Almont. Time 2:09. The pool selling was lively and loud were the laments of those who plunged in on Bess Shannon and Wild Oats.

There was some dispute over the Reno stake as it was claimed by some that Nevada rode under weight. The matter stood as first decided, Nevada the winner.

The next race was a quarter dash between Cap, R N and Elaine. It was a sharp contest and resulted in a victory for Cap, R N second and Elaine third. Time 24 seconds.

The fourth race was a 2:40 trotting race with the following entries: Flora Bell, Box, Esmeralda, Robert L and Anteo, Jr. The race was won in three straight heats by Robert L. Time 2:41, 2:33 and 2:40. Esmeralda, owned by Robert Stewart, won the second purse.

THE PAVILION.

Is fast filling up. However, there is not as good a fruit display as we had last year. The art department is also lacking somewhat, otherwise the Pavilion is superior to last year in every respect. The fancy work is up to the usual standard. The Pavilion will be the drawing card of this fair during the last nights of the week. Cars' band will discontinue sweet music, and there is no doubt but there will be an immense jam nightly.

SNAP SHOTS.

A gala day.
No flies on Mackay.
Keep cool gentlemen.
Hackmen are growing wealthy.
The crowd was quite enthusiastic.
Four car-loads of Caracoles yesterday.
The Carson "four hundred" were well represented.
Scraping matches were the order of the day yesterday.

Lemonade is not "in it" these frigid days.
The ladies at the Pavilion are working diligently.
The ladies indulged in a number of social side bets.
The grand stand was well filled with a jolly talkative crowd.
James Newlands was a conspicuous figure at the grand stand.
Mackay, like his namesake, was a bonanza king yesterday.
Nevada—there was a charm in the name that made her a favorite.
Colonel Hardin circulated among his many friends at the grounds.
Senator Stewart was a very conspicuous figure on the grounds during the day.
Assemblyman Frank Folsom was an interested spectator at the grounds yesterday.
The ladies' favorites in each case was the horse that had the prettiest dressed jockey.
During the afternoon the sun came out and the clouds faded away, rendering everything very pleasant.
Allen Kinkade and Fred Hellman drove down from Virginia City yesterday and returned late in the afternoon.
The Carson Mint was represented by Messrs. Cutts, Hofer, Jones, Wright, Elrod, Allen, Sterritt and Manning.
Two prominent Renottes created considerable excitement by indulging in a wordy war. Friends prevented bloodshed.
The State officers were represented by Governor Colcord, Lieutenant Governor Foulade, Attorney General Torreyson, Controller Horton, Secretary of State Gray, Superintendent of Public Instruction Ring.
The San Francisco Hotel runner is laid in the shade by the persuasion and persistent eloquence of the fair hackman as he insists on your getting into his bus, which in every case will leave immediately, if not sooner. He persistently blocks up the passage way, and as the innocent spectator emerges from the gate a dozen men seize him, shout in his ears, drag him hither and thither, the rest of the drivers in the meantime quarrelling, there being about thirty hacks trying to occupy space scarcely sufficient for fifteen. There will be serious trouble yet if they are not kept within the bounds of reason and decency.

TO-DAY'S RACES.

The programme for to-day's races will be as follows:
1st—Running 1/4 mile; purse \$300. Entries are Canny Scott, Montana and Del Mar.
2d—Trotting, 2:25 class; purse \$500. Entries are Maud Batchen, Pasha, Vidette and Don L.
3d—Trotting, 2:30 class; purse \$200. Entries are Flora Belle, Esmeralda, Anteo Jr. and Hera.
At 11 o'clock the twenty-mile relay race will take place, each rider using five horses changing every mile; purse \$150.
\$50,000 Damage Suit.
The Enterprise says: Grace Isabella and Ida Hampton, minor children of John C. and Helen Hampton, who met their death in the collision between the steamer City of Chester and the steamship Oceanic on August 22, 1888, have brought suit for \$50,000 damages against the Occidental and Oriental Steamship Company, James McCall, Master of the Oceanic, and Thomas Wallace, Master of the Chester. In the complaint it is alleged that the collision resulted from the carelessness of the Captains of the vessels.

Deafness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

E. J. CHENEY, Toledo, Ohio.
Sold by all druggists.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Notice to the Public.

Having re-fitted my barber shop and bath house with extra fine porcelain bath tubs, my bathing facilities surpass anything of the kind in this State, without any exception. Nothing but first-class work at C. Coleman's, west side of Virginia street, next to Fredrick's jewelry store.

A free for all trotters' and pacers' race for a purse of \$1,200, will take place at the track on Friday, September 25th, the entries are Frank M. Turk Franklin, Our Dick, Gold Medal and Hammer. The fastest time ever made in the State will be beaten in this race.

A new and choice selection of wall paper just received at McCullough's drug store.
